

FINISHING OPTIONS

EZ Finish Outdoor Systems kitchens feature granite countertops and aluminum cladding. Why aluminum? Aluminum surfaces require no seasonal maintenance work and offer a highly durable and decorative solution. Plus, you can choose from a range of colors for the cladding that fits your style.

Looking for something a little more custom? Give us a call and let's discuss how we can help.

Granite Countertops

WHITE ICE

STEEL GRAY

UNIVERSAL 2+2

EZ FINISH OUTDOOR KITCHENS AND FIRE PITS

If you want an outdoor kitchen, but don't have the skills to build one yourself and you don't want to deal with multiple contractors to make one—then an EZ Finish Outdoor Kitchen may be right for you.

When you purchase an EZ Finish Outdoor Kitchen*, our revolutionary bolt-together system enables you to assemble your outdoor kitchen in hours—not days.

*Components sold separately

Choose from a 6 ft or 8 ft island, or talk to us about a custom design that fits your specific needs.

Assembles in just minutes:

1. Bolt the two end panels to the front and back panel. All hardware is included.
2. Add cross supports in designated locations. Pre-driller and hardware is included.
3. Install the countertop.
4. Install the grill and components.
5. START GRILLING!!!!

HIGH-QUALITY MATERIALS MAKE IT DURABLE, LIGHTWEIGHT & RUSTPROOF!

All of our structures are welded 6061-T6 aircraft-grade aluminum bar stock. This keeps your kitchen lightweight without sacrificing structural integrity—so you can place it on multiple surfaces including decks, patios or pavers. Plus, aluminum will not rust and doesn't need a special coating to prevent rust. All of our finishing is done with non-combustible materials which eliminates the need for insulation.

The Benefits of Aluminum vs. Steel, Galvanized and Wood Structures:

	ALUMINUM	STEEL	GALVANIZED STUDS	WOOD
Lightweight	yes	no	yes	no
Rust	no	yes	yes	no
Rotting	no	no	no	yes
Combustible	no	no	no	yes
Welded Frame	yes	yes	no	no
Yield Strength	40k	36k	n/a	n/a
Flex and Deflection	minimal	moderate	high	high
